

the area surrounding the sewage treatment plant in the southernmost section of Kinston. Within the one-mile area of Kinston, most of the land is used for cultivated farms. Undeveloped lands in the one-mile area only account for 4,743.1 acres of land. As reflected in the 1971 land use map, major undeveloped land is located in the southern areas of the one-mile territory. The southeastern area is characterized by low lands subject to flooding.
